

Factsheet 87

Personal Independence Payment and Disability Living Allowance

June 2019

About this factsheet

This factsheet gives information about Personal Independence Payment (PIP), a non means-tested benefit for people under State Pension age who have a disability. State Pension age is gradually increasing and is 65 and 2-3 months in April 2019 and will be 65 and 8-9 months by April 2020.

The factsheet also has information about Disability Living Allowance (DLA) which is being replaced by PIP for some people. It covers the process for reassessing existing DLA claimants for PIP and explains what to do for both benefits if you have a change of circumstance.

If you are over State Pension age and have care needs, you may be able to claim Attendance Allowance (AA). See factsheet 34, *Attendance Allowance* for more information.

The information in this factsheet is correct for the period April 2019 – March 2020. Benefit rates are reviewed annually and take effect in April but rules and figures can sometimes change during the year.

The information in this factsheet is applicable in England, Scotland and Wales. If you are in Northern Ireland, please contact Age NI for information. Contact details can be found at the back of this factsheet.

Contact details for any organisation mentioned in this factsheet can be found in the *Useful organisations* section.

1 What is Personal Independence Payment?

Personal Independence Payment (PIP) is for people aged between 16 and State Pension age who need help with daily living activities and/or getting around because of long-term illness or disability. PIP does not depend on National Insurance contributions, is not affected by your income or savings, and is paid on top of most other benefits or pensions. It is payable whether you work or not and is not taxable.

It does not matter if you live alone or with other people, nor whether you have a carer or other help. Awards are based solely on whether you satisfy the conditions. You do not have to spend it paying for care, although your local authority may take it into account when assessing whether, and how much, you need to pay for care services received.

2 Who qualifies for PIP?

To qualify for PIP, you must:

- be aged 16 or over and under State Pension age (see section 2.1) when you first claim
- not receive DLA (unless transferring from DLA, see section 10.2)
- not be entitled to Armed Forces Independence Payment
- need help with daily living activities and/or mobility (see section 4)
- have satisfied the daily living and/or mobility conditions for at least three months and expect to satisfy them for at least the next nine months (except if you are terminally ill - see section 5.5)
- not be subject to immigration control
- be habitually resident in the UK and been in Great Britain for 104 weeks out of the previous 156 weeks.

The residence rules may not apply, including if you are terminally ill, you are a member of the armed forces, or you have lived in an European Economic Area (EEA) state or Switzerland.

2.1 Rules about your age

The table overleaf shows the last date you can claim PIP before reaching State Pension age (which happens the following day).

If you are awarded PIP, it can continue to be paid after reaching State Pension age, as long as you continue to satisfy the entitlement conditions.

If you have a short break in entitlement (less than 12 months) after reaching State Pension age, you can make a new PIP claim provided this is made on the basis of the same disability or health conditions as the previous award.

2.2 Last date you can claim PIP

Date of Birth	Last date you can claim PIP before reaching State Pension age
5 January 1954 or before	Already reached SP age
6 January 1954 to 5 February 1954	5 May 2019
6 February 1954 to 5 March 1954	5 July 2019
6 March 1954 to 5 April 1954	5 September 2019
6 April 1954 to 5 May 1954	5 November 2019
6 May 1954 to 5 June 1954	5 January 2020
6 June 1954 to 5 July 1954	5 March 2020

Action

You can find your State Pension age by using the calculator at www.gov.uk/calculate-state-pension or by phoning the Future Pension Centre on 0345 3000 168.

3 Current rates

PIP has a '*daily living component*' and a '*mobility component*' that can be paid separately or together. Rates for 2019/20 are:

Daily living component

Enhanced rate	£87.65
---------------	--------

Standard rate	£58.70
---------------	--------

Mobility component

Enhanced rate	£61.20
---------------	--------

Standard rate	£23.20
---------------	--------

4 PIP components

Qualifying for either PIP component depends on an assessment of your ability to perform particular activities related to daily living or mobility. Each activity contains a range of statements (called descriptors), describing various levels of difficulty in doing that activity. Descriptors scores between 0 to 12 points. For each activity, the descriptor that describes your situation most accurately is awarded to you.

The number of points you score for each activity within each component is added up. Only if your total is between 8 and 11 are you awarded the standard rate of the relevant component. If your total is 12 or more, you are awarded the enhanced rate of that component.

If a descriptor applies for more than six months in a one year period, you score the points for that descriptor (or the highest scoring descriptor if two or more apply to you for more than 6 months). If no descriptor applies to you for 6 months of the year, but two or more added together do, the descriptor that applies most of the time applies, or the highest scoring one if they apply for the same amount of time.

Descriptors describe different sorts of help you may need, such as using an aid or appliance, prompting, supervision or assistance.

Assistance means physical intervention by another person and does not include vocal assistance. **Prompting** is another person reminding or encouraging you to do an activity. **Supervision** means the continuous presence of another person for your safety.

You should not be assessed as able to undertake an activity unaided unless you can do it safely, to an acceptable standard, repeatedly and in a reasonable time period.

4.1 Daily living component

There are ten daily living activities:

- preparing food
- taking nutrition
- managing therapy or monitoring a health condition
- washing and bathing
- managing toilet needs or incontinence
- dressing and undressing
- communicating verbally
- reading and understanding signs, symbols and words
- engaging with other people face to face
- making budgeting decisions.

See section 11 for a full list of activities, descriptors and points.

Example

The dressing and undressing activity has six descriptors as follows:

Descriptor	Points
a. Can dress and undress unaided	0
b. Needs to use an aid or appliance to be able to dress or undress	2
c. Needs either: (i) prompting to be able to dress, undress or determine appropriate circumstances for remaining clothed, or (ii) prompting or assistance to be able to select appropriate clothing	2
d. Needs assistance to be able to dress or undress their lower body	2
e. Needs assistance to be able to dress or undress their upper body	4
f. Cannot dress or undress at all	8

If you need assistance to dress your lower body all the time, you are awarded 2 points for descriptor (d).

If (d) applies on average for 2 months of the year, (e) for 3 months and (f) for 2 months, then descriptor (e) applies and you score 4 points.

If (d), (e) and (f) each apply for 3 months of the year on average, you score 8 points for descriptor (f).

Aids and appliances

Many descriptors assess your ability to do something '*using an aid or appliance*'. This is something that improves, provides or replaces a function: for example walking sticks, modified cutlery and kitchen utensils, grab rails and shower seats.

It can include an aid or appliance that is not specifically designed for disabled people, like an electric can opener, if you need it due to your disability rather than through choice. If you do not have a particular aid or adaptation, you may be assessed as if you do, if you could reasonably be expected to use it.

4.2 Mobility component

There are two mobility activities that are assessed:

- planning and following journeys
- moving around.

Although the mobility component is awarded because you need help getting around, you can spend it how you choose. It is not usually payable if your mobility problems begin after reaching State Pension age. Seek specialist advice if this applies to you.

5 Making a claim

5.1 When to claim

A claim can be made up to three months in advance i.e. before you have satisfied the qualifying conditions of having difficulties for three months. You should not delay claiming because it may take some weeks to deal with your claim. Claims for PIP cannot be backdated before the date of your claim. If you are terminally ill, see section 5.5.

5.2 How to claim

PIP claims can be made by phone or on a claim form. If you claim by phone, you must provide information that DWP use to decide if you meet the basic qualifying conditions, for example age and residency.

If you meet the basic conditions, you are sent a claim form to explain how your condition or impairment affects your daily life, on good and bad days over a range of activities. The completed form and any other evidence you wish to submit, eg. a GP report or hospital letter, should be sent to the DWP within one month. If you have a good reason for needing longer than this, ask the DWP to extend the time limit.

Action

Phone 0800 917 2222 to start a PIP claim. Have the following information to hand: NI number, bank account details, phone number, GP or other health worker's details, details of any periods longer than four weeks spent abroad in the past three years.

Claim by post

You can get a form to send information by post (although this can delay the decision on your claim). Write to ask for a form to Personal Independence Payment New Claims, Post Handling Site B, Wolverhampton, WV99 1AH.

5.3 How your claim is assessed

The DWP look at your claim form and supporting evidence and decide whether to ask for additional information and whether you need to attend a face-to-face assessment with an independent healthcare professional. Most people have to attend an assessment. The DWP must give you seven days' notice of an assessment. The assessments are carried out by a private contractor on behalf of the DWP.

You can take someone with you to the assessment and you should be given the opportunity to explain your support needs. If you want to be assessed at home, e.g. because you have difficulty travelling, make sure you mention this when completing the claim form. The assessor may be responsible for gathering other evidence from you and the people or professionals who support you. If you have evidence, such as medical reports, that may help your claim, send them yourself rather than rely on the healthcare professional to ask for it.

A DWP decision maker considers all the evidence and information provided by you and makes a decision on whether you are entitled to PIP, what level you are entitled to, and the length of the award.

If, without good reason, you do not provide information required to assess your entitlement to PIP (including if you do not attend and take part in a face-to-face consultation when asked to do so), a decision can be made that you do not qualify for PIP.

5.4 Reassessments

Your entitlement to PIP may be reassessed at any time after it has been awarded. If you are awarded PIP for a fixed term, you need to reapply before the award comes to an end. For short awards, the DWP should send you a letter reminding you that you need to contact them on the telephone helpline to make your renewal claim.

5.5 Terminal illness

You are considered to be terminally ill if you have a progressive illness that is likely to limit your life expectancy to six months or less. If you are terminally ill, you can claim PIP without the three-month waiting period. It is impossible to say exactly how long someone will live and people who receive PIP under these rules may live longer than six months.

To claim under these rules, send a DS1500 doctor's report with your PIP claim. Ask your GP, hospital consultant or specialist nurse for this. The claim can be made by another person on your behalf. You should not have to have a face-to-face assessment.

If awarded PIP under these rules, you automatically receive the enhanced rate daily living component. You have to satisfy the conditions for the mobility component in the usual way (as in section 4.2) but the three month waiting period does not apply.

6 Example of who may be entitled to PIP

Vicky is 62 and was diagnosed with multiple sclerosis five years ago and her husband now supports her full-time. She spends most of her time in an electric wheelchair because she can only walk about 10–15 steps. Although her condition has not changed much over the last 18 months, things are very different from when she was first diagnosed.

Vicky tries to be independent and uses a variety of aids and appliances. Her husband sometimes assists her into the shower, but she can usually do this independently. She has a big walk-in shower cubicle with a seat and once in, she can wash without support. However, it takes a very long time as she has poor manual co-ordination.

She has an adapted toilet with a raised seat and grab rails. In the kitchen, she uses the microwave but finds it difficult lifting saucepans and cutting up food. She has modified clothes, with Velcro fastenings, so that she can dress herself. They use an adapted car which accommodates her wheelchair when going out.

Applicable descriptors

Daily living component

Preparing food 1E - Needs assistance to either prepare or cook a simple meal – 4 points

Taking nutrition 2B (iii) - Needs assistance to cut up food - 2 points

Washing and bathing 4B - Needs to use an aid or appliance to be able to wash or bathe – 2 points

Managing toilet needs or incontinence 5B - Needs to use an aid or appliance to manage toilet needs or incontinence - 2 points

Dressing and undressing 6B - Needs to use an aid or appliance to dress or undress - 2 points

Mobility component

Moving around 2E - Can stand and move more than 1 metre but no more than 20 metres, either aided or unaided – 12 points

Award

Vicky qualifies for enhanced rate daily living component (12 points) and enhanced rate mobility component (12 points).

Note - it could be argued for descriptor 4, *Washing and Bathing*, that Vicky should be awarded a higher scoring descriptor. She can wash herself, but she takes much longer than someone without an impairment. Thus she is unable to do this “*in a reasonable time*”.

As she has already established entitlement to the enhanced rate, there is no point in challenging the decision to award her benefit.

7 Decisions and payment

You are sent a decision on your claim in writing. The letter includes some information about how the decision was reached.

PIP is normally paid directly into your bank, building society or post office account. It can be paid to an appointee or someone with power of attorney if you are not able to act for yourself. If you are unable to open or manage an account, you can use the Payment Exception Service which allows you to withdraw benefits from PayPoint outlets. If you are unable to use any of these methods of payment, contact the DWP.

Payment is normally four weeks in arrears, unless you are terminally ill in which case you are paid weekly in advance.

7.1 How long is PIP paid for?

A PIP award can be indefinite but is usually for a fixed period. The length depends on an assessment of how likely your daily living and mobility needs may change over time. If you are awarded PIP for a fixed period, you will be invited to reapply before the award comes to an end – typically 12 months before the end of the period.

7.2 If you disagree with a decision

If you disagree with a decision on your PIP claim, you can challenge it. Details of how to do this are in the decision notice. It is important to challenge a decision or get advice promptly because there are time limits that usually mean you must act within one month of the decision. You must ask for a Mandatory Reconsideration before you can lodge an appeal with HM Courts and Tribunals Service. See factsheet 74, *Challenging welfare benefit decisions*, for more information.

8 Change of circumstances

The decision letter has information about your responsibility to inform the DWP of any changes in your circumstances that affect your claim.

8.1 If your condition changes

If you are under State Pension age

If you receive PIP and your condition changes so you think you may qualify for a different award, you can ask for your award to be looked at again. This is called a supersession.

You have to satisfy the conditions for an increased award for three months before it can be paid. When you ask for your award to be looked at, the DWP can look at the whole award again and can decide to reduce it, increase it or keep it at the same level.

If you are over State Pension age

You cannot normally establish entitlement to the mobility component for the first time after reaching State Pension age, although you continue to receive it if it was awarded before then. If awarded the standard rate of the mobility component before you reach State Pension age, you cannot move to the enhanced rate if your needs increase afterwards.

If awarded the enhanced rate of the mobility component before you reach State Pension age and your mobility needs reduce after State Pension age, you can move to the standard rate (and also back to the enhanced rate if your mobility needs increase again within one year).

If you are over State Pension age and receive the mobility component and you start to have daily living needs or your need for assistance with daily living increases, you can ask for a supersession and qualify for the standard or enhanced rate of the daily living component in the same way as if under State Pension age.

Important

It is a good idea to get independent advice before asking the DWP to look at your claim again because your PIP might be reduced or stopped altogether. An adviser can tell you whether you might qualify for a higher rate of PIP and how to explain your needs fully.

8.2 If the DWP needs more information

If you report a change in circumstances, the DWP may contact you, your doctor, or someone noted on the claim form, to ask for more information or to arrange an assessment by an independent health care professional. If an assessment appointment is made, you may want a friend or relative to be present. This is particularly important if you have difficulty making yourself understood.

The assessor is not your own doctor but is appointed by the DWP. They examine you and ask further questions. It may be useful to make a note of things you want to tell them about the help you need and difficulties you experience. You may be reluctant to admit you have problems or cannot do something, but it is important to give a picture of your normal range of activities – not just the things you can do on a ‘good day’.

8.3 Terminal illness

If you become terminally ill while receiving PIP, inform the DWP and ask for your claim to be looked at again under the terminal illness special rules. See section 5.5 for more information.

8.4 Hospital and care homes

PIP entitlement can be affected if you are in, or move into, a hospital or care home. If you go into, or come out of, a hospital or care home, you should always notify the DWP.

8.4.1 PIP in a hospital

Both PIP components are payable for your first 28 days in hospital, if the cost of your care is met by the NHS or charitable funds. If you have two or more inpatient stays separated by 28 days or less, they are linked and PIP payments are suspended after you have spent 28 days in hospital. You are paid PIP for days spent at home in between hospital stays.

If you first claim PIP whilst in a hospital and the cost of your care is met by the NHS or a charitable body, you are not paid while you are an inpatient. Your claims starts being paid when you go home.

If you pay the costs of your hospital care, you can carry on being paid both PIP components indefinitely. PIP is also paid if awarded under special rules for terminal illness and you are in a non-NHS hospice.

8.4.2 PIP in a care home

Daily living component

If you pay the full fees in a care home, with or without benefits like Pension Credit, you can continue to receive PIP daily living component. This applies if you are self-funding in a nursing home, with funded nursing care payments from the NHS being made to the home.

If the local authority helps to pay your care home fees, the daily living component stops 28 days after admission (or sooner if you were previously in hospital). You retain an '*underlying entitlement*', so if you move out of the home you can start to be paid it again.

If the local authority provides temporary funding that will later be reimbursed by you (for example, under a deferred payment agreement), the daily living component is paid during the period of temporary funding.

If the NHS pays all your care home fees, through NHS continuing healthcare funding, you are treated as if you are in hospital (see section 8.4.1) and the daily living component is not paid after 28 days.

If you have a temporary admission to a home, for example, for respite care funded in full or in part by a local authority or a Clinical Commissioning Group, the daily living component stops being paid after 28 days. Periods of less than 28 days are linked and added together to reach the 28 day limit. If you need regular periods of respite care in a care home, it may be possible to plan these so your PIP is not affected. Seek advice if this applies to you.

Mobility component

PIP mobility component is payable no matter who pays your care home fees or how long you remain in a care home.

However, if you are in a nursing home and the NHS pays all your fees through NHS continuing healthcare funding, you are treated as if you are in hospital (see section 8.4.1) and payment stops after 28 days.

Action

For more information on living in a care home, see our factsheets on care and care homes. Contact Age UK Advice to order them and other versions if you live in Wales or Scotland.

In Scotland, contact Age Scotland for information about how PIP and free personal and nursing care work together. NHS continuing healthcare funding is no longer available for funding a place in a care home for new assessments.

8.5 Prisoners

Generally, neither component of PIP is payable after 28 days in prison or legal custody.

8.6 Going abroad

If you go abroad temporarily and intend to return within 52 weeks, your PIP entitlement continues for up to 13 weeks. If you go abroad specifically to receive medical treatment, PIP can continue for up to 26 weeks.

Different rules apply to members of the armed forces and their families, aircraft workers and mariners.

Exporting PIP

Sometimes the daily living component of PIP can be paid if you leave the UK to live in an European Economic Area (EEA) state or Switzerland. You may be able to make a claim for the daily living component from an EEA state or Switzerland if you have a genuine and sufficient link to the UK social security system.

For further information and/or to request a claim form write to:
Exportability Co-ordinator, Room B201, Pension, Disability and Carers Service, Warbreck House, Warbreck Hill Road, Blackpool FY2 OYE or email exportability.team@dwp.gsi.gov.uk.

There is information at www.gov.uk/claim-benefits-abroad/disability-benefits or seek advice from a local Age UK or another independent organisation.

9 PIP and other benefits

9.1 Overlapping benefits

You cannot get PIP at the same time as DLA, AA or Armed Forces Independence Payment. Constant AA, which is paid with Industrial Injuries Disablement Benefit and War Disablement Pensions, overlaps with PIP daily living component. War pensioners' mobility supplement overlaps with PIP mobility component. If you qualify for two overlapping benefits, you are paid whichever is higher.

9.2 Means-tested benefits

Income from PIP is ignored in the calculation of means-tested benefits including Pension Credit, Universal Credit, Income Support, income-related ESA, income-based JSA, Housing Benefit, and Tax Credits.

Entitlement to PIP may help you get a higher amount of means-tested benefits. For example, you could receive the 'severe disability addition' within Pension Credit.

If someone in your household receives PIP, you are exempt from the benefit cap limiting the amount of benefit a working age household can get.

See Age UK factsheet 48, *Pension Credit*, factsheet 17, *Housing Benefit*, and factsheet 56, *Benefits for people under Pension Credit age*.

9.3 Council Tax

If you have a severe mental impairment and you are awarded either rate of the daily living component of PIP, you may be entitled to a Council Tax discount or exemption.

A severe mental impairment can be a learning disability, mental illness or a condition like dementia. Ask your local authority for details of the scheme available in your area.

9.4 Benefits for carers

If you are awarded the daily living component of PIP and you have a carer, they may be entitled to claim Carer's Allowance or NI credits.

Note

See factsheet 55, *Carer's Allowance*, for more information, and seek advice to check if claiming this will affect your other benefits.

In Scotland, contact Age Scotland about the CA Supplement.

9.5 Motability Scheme

If you are awarded the enhanced rate mobility component, you can apply for a contract-hire or hire-purchase car, powered wheelchair, or mobility scooter through the Motability Scheme. For more information, see www.motability.co.uk.

9.6 Other benefits

If you qualify for PIP, you qualify for a £10 Christmas bonus.

If awarded 8 points or more under mobility activity 2 '*moving around*' you automatically qualify for a Blue Badge parking permit. This allows parking with some limitations but usually without charge at meters or where waiting is restricted.

If awarded 8 points or more under mobility activity 2 '*moving around*' or activity 7 '*communicating verbally*' you automatically qualify for a concessionary travel pass (any award of PIP in Scotland qualifies for the equivalent travel pass).

If awarded enhanced rate mobility component you can get an exemption from road tax (Vehicle Excise Duty) or a 50 per cent discount if you receive the standard rate mobility component.

10 Disability Living Allowance

DLA is a similar benefit to PIP and has been replaced for new claimants aged 16 to State Pension age. It remains available for children aged under 16. This section is for existing DLA claimants and looks at what the changes mean.

10.1 Current rates

Care component

High	£87.65
------	--------

Middle	£58.70
--------	--------

Lower	£23.20
-------	--------

Mobility component

High	£61.20
------	--------

Lower	£23.20
-------	--------

10.2 Reassessing existing DLA claimants for PIP

If you are an existing DLA claimant, the DWP may reassess you for PIP depending on what your age was on 8 April 2013.

10.2.1 If you were 65 or over on 8 April 2013

If you receive DLA and reached the age of 65 by 8 April 2013, the reassessment does not apply to you. You remain on DLA as long as you continue to satisfy the eligibility conditions.

10.2.2 If you were under 65 on 8 April 2013

If you receive DLA and were under 65 on 8 April 2013, the reassessment applies to you. When selected, you are told your DLA claim is ending and invited to make a claim for PIP, even if your DLA was awarded indefinitely. You are also invited to claim PIP if you report a change or circumstances on your DLA claim.

When invited, you must contact the DWP within four weeks to start a new PIP claim. The DWP take your basic details and send you a claim form.

You have four weeks to send this back, although the DWP can give you longer if you have a good reason for needing an extension. Unless the deadline is extended, your DLA payments stop if you do not make a PIP claim within four weeks.

Note

If you receive a letter, it is important you act as soon as possible. If you miss the four week window, DLA payments stop. If you make a PIP claim within a further four weeks, your DLA goes back into payment while your PIP claim is assessed. If you do not claim PIP, your DLA stops and you cannot get it reinstated.

When you claim PIP, your DLA payments continue while you are being assessed. If awarded PIP, your DLA continues for four weeks after your next payment date, and then your PIP claim starts. If you are refused PIP, your DLA continues for four weeks and then stops.

10.3 Change of circumstances

If you were under 65 on 8 April 2013

If you receive a lower rate of a DLA component and your condition deteriorates so you may qualify for a higher rate, you can ask for your case to be reconsidered. This means you are reassessed for PIP. As PIP has no equivalent of low rate care component, you may lose this and once the PIP claim starts it cannot be stopped or reversed.

Important

It is a good idea to get independent advice before you contact the DWP to ask for your claim to be looked at again. An adviser can tell you whether you may qualify for a higher rate of benefit and also how to explain your needs fully to the DWP.

If you were 65 or over on 8 April 2013

If your condition changes, you cannot receive low rate care component for the first time but you can move to or start to receive the middle or high rate. For example, if you receive middle rate care but you now need help day and night, you can apply for the higher rate. You must satisfy the conditions for six months before your rate can be increased.

You cannot normally be awarded either rate of the mobility component for the first time. Nor can you move from lower rate mobility to higher rate mobility. The only exception is if:

- you already receive DLA, and
- you can show you met the qualifying conditions for the new award before you were 65, and
- the relevant medical conditions did not happen since your 65th birthday.

10.3.1 If the DWP needs more information

The same rules apply as for PIP, see section 8.2.

10.3.2 Terminal illness

The same rules apply as for PIP, see section 8.3.

10.3.3 Hospital and care homes

The same rules apply as for PIP, see section 8.4.

10.3.4 Prisoners

Generally, DLA is not payable after 28 days in prison or legal custody.

10.3.5 Going abroad

The same rules apply as for PIP, see section 8.6.

10.4 If you disagree with a decision

The same rules apply as for PIP, see section 7.2.

10.5 DLA and other benefits

The same rules apply as for PIP, see section 9.

11 PIP Activities, descriptors and points

11.1 Daily living activities

Activity	Descriptors	Points

Our publications are available in large print and audio formats

Next update April 2020

The evidence sources used to create this factsheet are available on request. Contact resources@ageuk.org.uk

This factsheet has been prepared by Age UK and contains general advice only, which we hope will be of use to you. Nothing in this factsheet should be construed as the giving of specific advice and it should not be relied on as a basis for any decision or action. Neither Age UK nor any of its subsidiary companies or charities accepts any liability arising from its use. We aim to ensure that the information is as up to date and accurate as possible, but please be warned that certain areas are subject to change from time to time. Please note that the inclusion of named agencies, websites, companies, products, services or publications in this factsheet does not constitute a recommendation or endorsement by Age UK or any of its subsidiary companies or charities.

Every effort has been made to ensure that the information contained in this factsheet is correct. However, things do change, so it is always a good idea to seek expert advice on your personal situation.

Age UK is a charitable company limited by guarantee and registered in England and Wales (registered charity number 1128267 and registered company number 6825798). The registered address is Tavis House, 1–6 Tavistock Square, London WC1H 9NA. Age UK and its subsidiary companies and charities form the Age UK Group, dedicated to improving later life.
